

Handout 2: Topological Sort

POSET = DIGRAPH

$$a \leq b$$

Product order on $\mathbb{R}^2$

all comparability

close under transitivity

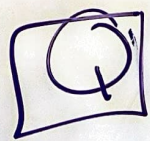

Hasse

• Not comparable
to anything.

TYPO

• pg 1, #2

iff $(a_x < b_x)$ or $(a_x = b_x \text{ and } a_y \leq b_y)$

How can you find a
longest path in a DAG?
(Thanks, Eli)
